SAFETY DATA SHEET

Ceia Bio Push Date Prepared: 06/04/2024 Replaces: All Previous

SECTION 1. IDENTIFICATION

Product Name: Ceia Bio Push

Synonyms: none

Use: Agricultural, Liquid Micronutrient Fertilizer

Manufacturer: Chemical Dynamics, Inc.

4206 Business Lane Plant City FL 33566

Phone: 813-752-4950 Chemtrec (Emergency) Phone: 800-424-9300

SECTION 2. HAZARDS IDENTIFICATION

Pictogram	Signal Word	Hazard Class	Hazard Category	Hazard Statement
	WARNING	Skin Irritation Eye Irritation	Cat 2 Cat 2A	Causes skin irritation Causes serious eye irritation
		STOT: repeat exposure	Cat 2	May cause damage to central nervous system through prolonged or repeat exposure

Precautionary Statements:

Prevention: Do not breathe vapors, mists or sprays. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves, chemical splash proof goggles, and face protection.

Response: Get medical attention/advice if you feel unwell.

<u>If on skin (or hair)</u>: Wash with plenty of water. Take off contaminated clothing and wash it before reuse. If skin irritation occurs: Get medical attention.

<u>If in eyes</u>: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention.

Storage: Keep container tightly closed.

Disposal: Dispose of contents/containers in accordance with local/regional/national regulations (See Section 13 of SDS).

SECTION 3. COMPOSITION

Material	CAS#	EINECS #	%WT
Manganese Sulfate	10034-96-5	232-089-9	9-10%
Magnesium Sulfate	7487-88-9	231-298-2	Proprietary blend of
Water	7732-18-5	231-791-2	materials not classified as hazardous or below de minimus concentration limits

See product label for guaranteed analysis.

	SECTION 4. FIRST AID MEASURES
General:	In case of persisting adverse effects consult a physician. Treat symptomatically.
Ingestion:	Rinse mouth. Do NOT induce vomiting. Drink large amounts of water. Never give
	anything by mouth to an unconscious person.
Skin Contact:	Remove contaminated clothing. Wash with soap and water. Wash contaminated
	clothing before reuse. If skin irritation occurs: Get medical advice/attention.
Inhalation:	If inhaled: Remove person to fresh air and keep comfortable for breathing.
	Provide artificial respiration if necessary. Get medical attention for any breathing
	difficulty.
Eye Contact:	Rinse cautiously with water for several minutes. Remove contact lenses if
	present and easy to do. Continue rinsing. If eye irritation persists: get medical
	attention.
Acute Exposure	Irritation or burning sensation to eyes. Prolonged or repeated contact with skin
Symptoms:	may cause skin irritation. Ingestion of product solution may cause irritation of
	the gastrointestinal tract to include nausea, vomiting and diarrhea. Potassium
	thiosulfate is considered to have a low toxicity to humans.
Chronic Exposure	Prolonged skin contact may result in dermatitis (inflammation and redness of
Symptoms:	skin).
	Manganese may lead to neurotoxicity that resembles Parkinson disease. These
	patients may have bradykinesia, resting tremor, psychiatric disturbances, and
	shuffling gait.

	SECTION 5. FIRE FIGHTING MEASURES
Extinguishing Media:	Water spray is recommended. Halon, foam, dry chemical, CO2 or any ABC class extinguisher are acceptable. Use extinguishing agent most appropriate to
	surrounding materials. Cool containers with water spray to avoid rupture due to thermal expansion.
Specific Hazards:	This product is an aqueous mixture which will not burn. In a fire this material may decompose and produce acrid vapors, manganese, magnesium, sulfur oxides, nitrogen oxides and carbon oxides
Protective	Wear self-contained breathing apparatus (SCBA) and full protective gear. Avoid
Equipment and	inhaling combustion products.
Precautions for	Fire run-off should be contained to prevent possible environmental damage.
Fire-Fighters:	
NFPA Rating:	Health: 1, Fire: 0, Reactivity: 0

	SECTION 6. ACCIDENTAL RELEASE MEASURES
Precautions:	Isolate area. Keep unnecessary personnel away. Avoid splashing or spraying.
Protective	Impervious gloves (rubber, neoprene or nitrile), Long sleeved clothing.
Equipment:	Chemical splash-proof goggles, face shield
	Chemical resistant apron and/or rubber boots may be needed.
Containment:	Stop flow of material if safe to do so. Dike area with diatomaceous earth or sand
	and maximize recovery.
Clean Up:	Pump into a suitable tank or absorb with diatomaceous earth or sand. Sweep up
	and place into suitable containers for agronomical land application at

Rev: 06/04/2024 SDS: Ceia Bio Push Page 2 of 6 Chemical Dynamics, Inc.

	recommended rates	or dispose of in acc	ordance with local/regional/national
	regulations (See Section 13 of SDS).		
		7. HANDLING AND	STORAGE
Precautions for safe handling:	Avoid contact with skin and eyes. Do not breathe sprays, vapors or mists. Do not eat, drink or use tobacco products when handling this material. Apply product in open areas. Keep away from children and pets. Do not contaminate feed, seed or any water sources. Launder work clothes frequently and separate from other laundry.		
Conditions for safe storage:	Store in a well-ventilated, cool, dry place, away where freezing is possible. Do not store combustibles in the area of storage vessels. Keep away from any sources of heat or flame. Store tote and smaller containers out of direct sunlight at moderate temperatures. Keep containers tightly closed when not in use. Do not let product go below 42°F. Inspect all incoming containers before storage, to ensure containers are properly labeled and not damaged. Product solutions have been successfully stored in 304 stainless steel, fiberglass, polypropylene and HD polyethylene.		
Incompatibilities:	Water reactive materials, strong oxidizers.		
	SECTION 8. EXPOSUR	E CONTROLS / PER	SONAL PROTECTION
Component Exposure Limits:	Manganese Sulfate	5 mg/m ³ Not Established 0.2 mg/m ³ 500 mg/m ³ 1 mg/m ³ 3 mg/m ³	PEL, OSHA (as Mn compounds) STEL, OSHA TLV, ACGIH (as Mn compounds) IDLH, NIOSH (as Mn) TWA, NIOSH (as Mn) STEL, NIOSH (as Mn)
	Magnesium Sulfate	Not Established Not Established Not Established Not Established Not Established	PEL, OSHA TWA, ACGIH IDLH, NIOSH REL, NIOSH STEL, NIOSH
Engineering Controls:	Provide local exhaust ventilation and wash facilities.		
Personal Protective Equipment:	Eyes: Chemical splash-proof goggles (where splashing is possible) Skin: Impervious gloves (rubber, neoprene or nitrile), long sleeved clothing.		
LUUIDIIICIIL.	Chemically resistant apron is recommended.		

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES			
Appearance:	Dark, Opaque liquid		
Odor:	Slight sweet odor	UEL / LEL:	Not Applicable
Odor Threshold:	Not Available	Vapor Pressure:	Similar to water
pH:	3.5 to 4.5	Density:	1.25 to 1.27 g/cm ³

Eye wash stations and safety shower recommended.

<u>Respiratory</u>: None required for ambient air concentrations (i.e. in the open under normal agronomic conditions) not exceeding occupational exposure limits. Respiratory protection may be required in the event of a spill in an enclosed area. Use a NIOSH/MSHA approved SCBA with full face piece operated in a

Rev: 06/04/2024 SDS: Ceia Bio Push Chemical Dynamics, Inc.

positive pressure mode.

General:

Melting/Freezing Point:	< 0°C (32°F)	Solubility:	Water
Boiling Point:	> 100°C (212°F)	Log _{ow} :	Not Available
Flash Point:	Not Applicable	Auto Ignition Temp:	Not Applicable
Evaporation Rate:	Similar to water	Decomposition Temp:	Not Available
Flammability (Solid/Gas):	Not Applicable	Viscosity	Not Available

SECTION 10. STABILITY AND REACTIVITY		
Reactivity:	Stable	
Chemical Stability:	Stable under normal conditions	
Possibility of Hazardous	Hazardous polymerization will not occur.	
Reactions:		
Conditions to avoid:	Avoid exposure to extreme temperatures, contact with incompatible chemicals and all contact with combustible materials. Elevated temperatures may cause containers to rupture. Cold temperatures may cause product to salt out.	
Incompatible Materials:	Water reactive materials, strong oxidizers. Strong oxidizers such as nitrates, nitrites or chlorates can cause explosive mixtures if heated to dryness.	
Hazardous Decomposition Products:	Manganese, magnesium, nitrogen oxides, sulfur oxides and carbon oxides	

SECTION 11. TOXILOGICAL INFORMATION		
Acute Toxicity:	ATE > 2000 mg/kg	
	Manganese Sulfate:	
	LD50 oral (rat): 2150 mg/kg (100% basis)	
	Magnesium Sulfate:	
	LD50 oral (rat): 8100 mg/kg (100% basis)	
Likely Routes of	Inhalation, ingestion or skin absorption	
Exposure:		
Symptoms and Signs of	Eyes: May cause mild irritation. May result in redness, tearing and blurred	
Exposure:	vision.	
	Skin: Ma cause mild irritation to the skin. May result in redness, itching	
	and pain.	
	Ingestion: May cause digestive tract irritation, with accompanying	
	nausea, vomiting and diarrhea.	
	Inhalation of mist may irritate or burn nose, throat and lungs. Coughing,	
	nausea, headaches and weakness are possible.	
	Effects are expected to be transient.	
Chronic Effects:	Prolonged skin contact may result in dermatitis (inflammation and	
	redness of skin.	
	Manganese may lead to neurotoxicity that resembles Parkinson disease.	
	These patients may have bradykinesia, resting tremor, psychiatric	
	disturbances, and shuffling gait. Also, chronic excess manganese	
	inhalational exposures may lead to pulmonary inflammation and	
	subsequent reactive airway disease.	

SDS: Ceia Bio Push Chemical Dynamics, Inc.

Rev: 06/04/2024

Carcinogenetic:	None of this product's components are listed by IARC, ACGIH, OSHA, NIOSH or NTP as carcinogenic.
Mutagenicity:	Not Available
Reproductive Toxicity:	Not Available

	SECTION 12. ECOLOGICAL INFORMATION	
Ecotoxicity:	In high concentrations, this product may be harmful to both terrestrial	
	and aquatic plant or animal life.	
Other Adverse Effects:	Not harmful to ozone layer	
Ecotoxicity:	Manganese Sulfate:	
	LC50 Daphnia magna (Water Flea): 15200 ug/L/48 hr; static	
	LC50 Canthocamptus sp (Harpacticoid Copepod): 150 ug/L/48 hr;	
	static	
	LC50 Pimephales promelas (Fathead Minnow): 30600 ug/L/96 hr;	
	flow through	
	Magnesium Sulfate:	
	LC50 Ceriodaphnia dubia (Water Flea): 1770 mg/L/48 hrs;	
	Freshwater, Static	
	LC50 Pimephales promelas (Flathead Minnow): 7900 mg/L/48 hrs;	
	Freshwater, Static	

SECTION 13. DISPOSAL CONSIDERATIONS	
General Information:	None
Disposal Instructions:	Agronomical land application at recommended rates or dispose of in
	accordance with local/regional/national regulations.

SECTION 14. TRANSPORT INFORMATION		
This material is not hazardous as defined by 49 CFR 172.101 by the US Department of		
Transportation		
Proper Shipping Name:	Not Applicable	
Hazard Class:	Not Applicable	
UN Identification #:	Not Applicable	
Packing Group:	Not Applicable	
Required Label(s):	Not Applicable	
Emergency Response	Not Applicable	
Guide Number:		
Marine Pollutant:	Yes (Manganese)

SECTION 15. REGULATORY INFORMATION	
TSCA Inventory Status	All intentional ingredients listed on the TSCA inventory.
DSCL (EEC) Status	All intentional ingredients listed on the DSCL inventory.
United States – SARA Hazard Category:	This product has been reviewed according to the EPA Hazard Categories promulgated under Sections 311 and 312 of Title III of the Superfund Amendments and Reauthorization Act (SARA) and is considered, under applicable definitions, to meet the following categories: Fire – No, Pressure – No, Acute – Yes, Chronic – No, Reactive – No
SARA Title III	This product contains the following substances subject to the reporting
Information:	requirements of Title III (EPCRA) of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372:
Manganese Sulfate	CERCLA RQ (pounds): No RQ is assigned to this generic or broad class, (Manganese and Zinc compounds) although the class is a CERCLA hazardous substance. See 50 Federal Register 13456 (April 4, 1985). SARA Reporting, 302: No SARA Reporting, 304: No SARA Reporting, 313: : Yes, 1.0% de minimus concentration (N450, Manganese Compounds)
Federal Insecticide,	This product is not a pesticide.
Fungicide, and	This product is not a positioner
Rodenticide Act	
State Regulations:	Other state regulations may apply. Check individual state requirements.
SECTION 16. OTHER INFORMATION	
Date of Revision:	06/04/2024, revision prepared in accordance with 29 CFR 1910.1200
	Appendix D to meet Global Harmonization Standards.
Disclaimer:	The information contained in this SDS refers only to the specific material designated and does not relate to any process or use with any other materials. This information is based on data believed to be accurate and reliable as of the date hereof. It is intended for use by persons possessing technical knowledge at their own discretion and risk. Because safety standards and regulations are subject to change and because Chemical Dynamics, Inc. has no continuing control over the material, those handling, storing or using the material should satisfy themselves that they have current information regarding the particular way the material is handled, stored or used and that the same is done in accordance with federal, state and local law. No warranty, expressed or implied, and no liability is assumed by Chemical Dynamics, Inc. in conjunction with the use of this information. Nothing herein is to be construed as a recommendation to infringe any patents.
